Hi Lynn

Looks fine to me. Are you going to send to John Bucher?

Also-maybe we should just skip the first blurb and go with the second since we got the OK form Paul on Friday to move forward.

To respond to your question----we won't have a second listening session or public comment period.

If we all agree on this language, then we can send it to John Bucher for a quick--"OK" before posting.

Thanks Norm--note that I am adding the rest of the team....

Blurb to use after the assessment is split--which is now????:

Based on input from Lynn, I have revised language for the methanol external peer review web page. Please let me know if the text below is okay with you.

Deliberative Process / Ex. 5

After the assessment is split:

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

The Jan 2010 FRN announcing the public comment period and listening session (<http://www.gpo.gov/fdsys/pkg/FR-2010-01-12/html/2010-338.htm>) mentions that the old assessment is going to SAB. The new FRN announcing the PR for the non-cancer assessment could correct this, if necessary. Nobody is suggesting that we do another public comment period or listening session, right? Seems like it would be useless to do so since the assessment has not changed.

Thanks

Here's some draft text that could be used on the external peer review web page for methanol. We can change this again when the non-cancer part of the assessment goes into peer review. Let me know if you'd like any changes.
